NU-156 ~ Polypropylene VLAF Warranty

LabAire Systems warrants that all Vertical Laminar Airflow ("Products") will be in conformity with the specifications of the Quotation and Purchase Order and will be free from all defects in material or workmanship which materially impair the performance of the Products, when used under proper and normal use, for a period of twelve (12) months from the date of the first delivery of the Product (unless otherwise specified in writing by Seller).

Claims that are defined as defective at the time of sale, will need to be properly identified (serial #) to institute warranty. If the serial # is removed or defaced as illegible, the warranty shall be null and void in its entirety.

The effects of normal wear and tear do not constitute a defect for purposes of this warranty. This warranty is provided by Seller solely to the original Buyer of the Product and applies to Product manufactured by Seller, if any, as well as any warranties provided by Seller's suppliers.

The foregoing express warranties are the sole exclusive and entire warranties pertaining to the Product and are in lieu of and exclude all other warranties, whether express, implied or arising by operation of law, trade usage or course of dealing, including without limitation, any warranties of merchantability or fitness for a particular purpose.

All other warranties are hereby disclaimed and excluded by Seller. No statement or recommendation made or assistance given by Seller to Buyer about the use of any Product by Buyer shall constitute a waiver by Seller.
